

**Sławomir Hausman** received his M.Sc. (with honours) in Electronics in 1982 from Lodz University of Technology (Poland) and his Ph.D. from the University of Strathclyde, Glasgow, UK, in 1990. He obtained his habilitation (Dr. hab.) from Lodz University of Technology in 2009, where he currently holds the position of Professor.

His research and publications focus on radio propagation modeling, human exposure assessment to electromagnetic fields, wireless body area networks, optimization of microwave systems, 5G cellular systems, metamaterials, electromagnetic compatibility, computational electromagnetics, and digital signal processing. He has led or been a team member in over twenty R&D projects for industry. Additionally, he has several years of experience as a small business owner, designer, and industry specialist, working in sectors such as electric power utilities, telecommunications operators, and the Polish Office of Electronic Communications. From 1994 to 1997, he was employed as a Senior Telecommunications Network Specialist at the Lodz Electric Power Utility.

He currently serves as the Chairman of the Polish National Committee of the International Union of Radio Science (URSI) – Commission K.

He has over 15 years of experience in various academic administrative roles, including nine years as Dean of the Faculty of Electrical, Electronic, Computer, and Control Engineering at Lodz University of Technology.
